N49614 Off Airport Landing Statement

The aircraft with one pilot and one passenger took off from Shumway International Airport (IL05) at approximately 1:25pm CDT after attending an EAA fundraiser BBQ pork luncheon. The destination airport was Huntington Municipal Airport (KHHG), approximately a three hour flight with headwinds.

We landed after 2.1 hrs of flying at Frankfort, Indiana Airport (KFKR) to use the restroom facilities and to obtain fuel. After topping off the single wing tank and the header tank the oil was checked and found to be a quart low, so a quart of Phillips 20W-50 was added. A skydiving drop plane was departing with skydivers and we rushed to take off so as not to interfere with the skydivers over the airport.

Approximately 15 miles east of KFKR I noticed oil on the side window and the oil pressure dropping rapidly. I informed the passenger that we were going to make an off airport landing in a plowed field as I didn't believe the engine would make it three miles ahead to the grass strip airport, Glendale.

The descent was initiated as a left base leg at approximately 62 degrees, the course path. A left turn to final was then initiated to turn to the north flying over the house at the south end of the plowed field. The landing was in line with the plowed furrow lines and the touchdown was uneventful with the plane slowing down toward the end of the field. Since I kept the airspeed up to avoid the obstacle at the approach end of the field (the house), the aircraft could not stop before reaching the end of the field, so a ground loop was attempted to the left (west) when the right gear collapsed at the end of the field and the plane nosed into the wire fence and brush at the far end.

The pilot and the passenger exited the plane without incident or injury. There was no fire. Fuel system and magnetos were shut off.
