NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Taxied to end of runway. Put on second Abp at 25°. Held brakes an gave full throttle. Released brakes an accelerated. Plane rotated at around 20 mph. Flew parallel to runway just off ground to build up speed to climb. would not build up speed. I felt wheels touch and plane lifted again. I tried to climb after that. It would not climb so I set plane back on ground an got on toe ~~brakes~~ brakes and pulled off power. steered w/ rudder to turn plane to the right for best place to stop. Went through a grass valley which caused the damage to plane. I made the decision to deal with the plane on the ground rather than in the air. Jet didn't have enough runway to stop.

Flew off the ground and just above the runway for along time before aborting flight. Have no reason as to why it would not accelerate in the air
