NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained.

Normal landing - I chopped the power (as soon as it turned out) 50 ft from end of Runway #30 I was going to slow & the airplane stalled - the left wing went down & hit the ground in an attempt to get back on course I made a sharp right turn & the right wing hit the ground. At the same time the gear hit the snow. The plane came up in the back but did not flip over! Instead the sudden stop sent everything in the plane forward. As it came up in the back the propeller hit the frozen ground got bent back & stopped.
