Good morning Paul,

My apologies for the confusion as well... I used a "shortcut" lookup the first time which only showed me the most recent edition of the briefing.

The briefing was initially generated in conjunction with the flight plan being filed, at 03:46 UTC:

However the pilot appears to have "refreshed" the briefing (easily done by tapping the "Refresh" button in the app) at 10:51 UTC: <https://s3.amazonaws.com/cdn.foreflight.com/weather/prod/pngb/briefs/64b8cdd3-d84d-4313-b0b4-ec1e50d784d2.html>

Let me know if you need anything else,
