

Memo for Record

Craig Hatch
Air Safety Investigator
Central Region

Date: April, 2020
Person Contacted: FAA FSDO Gene Sutton
NTSB Accident Number: CEN20LA143

Narrative: During notification and follow-up conversations with inspector Sutton, the following information was relayed:

- There were no reported witnesses to the actual accident.
- It appeared that the airplane impacted a tree, near the edge of the field, before impacting the field
- There was a post-crash fire
- The pilot was transported to the hospital with life threatening injuries
