

NTSB RECORD OF CONVERSATION

Investigator name: Shaun Williams
Title: Senior Aviation Accident Investigator
Region: Central

Date: 7/17/2020
Person Contacted: Thomas Davis
NTSB Accident Number: CEN20LA145

Narrative:

During a wreckage exam conducted at Dodson International for accident CEN20LA145, N1258Z, on July 14, 2020 the FAA was joined by Peter Basile of Textron Aviation.

On the afternoon of July 14, following the completion of the exam, the FAA inspector, Mr. Thomas Davis called to update me on the work accomplished. He stated that engine continuity was established from the front of the engine to the back and all valves and cylinders appeared to be functioning normally when observed with the valve covers removed. Additionally, the stated that the left magneto was working and sparking when activated with a hand drill, but he was unable to get spark on any terminals of the right magneto.
