

Statement of Plane Crash

On May 20, 2020 Approximately 4:20 pm I witnessed from the parking lot of Watson and Sons Funeral Home the plane coming out of the South what seemed to be attempting to land as it flew over the highway, it started sputtering and stalled as it continued over the runway.

At about the end of the runway the plane seemed to ascend and head to the East and went out of sight. I then walked into the funeral home for a few minutes. Then I (Sean Watson) Lucas Harbison, and Zack Runnels were preparing to leave to go home. We then heard the plane engine running at what seemed to be high rpm over the funeral home. We then seen the plane coming down nose first behind the funeral home. We then seen the plane go down into the trees and heard it make contact with the ground.

Cell - 

On 5/20/20, at approximately 4:40 p.m., I (Lucas Harbison), Sean Watson, and Zack Runnels were out behind the funeral home. I heard a plane revved up overhead so I looked up to see a small plane nose diving to the ground. I heard the plane make contact with the ground and immediately called 911.

Lucas Harbison
