

The diagram illustrates a network structure within an orange rectangular frame. Nodes are represented by the letter 'P' and 'M'. There are two blue diamond shapes and one blue hourglass shape. The connections and layout are as follows:

- At the top center, a blue diamond shape is connected to a node 'P' on its left and a node 'P' on its right.
- Below the top diamond, there is a node 'P' in the center, a node 'P' to its left, and a node 'P' to its right.
- To the left of the central 'P', there is a node 'P' above a blue hourglass shape, which is in turn above a node 'P'.
- To the right of the central 'P', there is a node 'P' above a node 'P'.
- On the far right, there are three 'M' nodes arranged vertically.
- At the bottom, there is a node 'P' on the left, a node 'P' in the center, and a node 'P' on the right.
- There are also some blue lines and shapes at the top: two parallel lines on the left, a single line in the center, and a blue square-like shape on the right.
