Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Destroyed HIT ground Belly First collapsed

Little damage to Farmers Rice Field

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Side Panel started to come off 3/4 way down airstrip to far to be able to stop safely. Though it would be OK to left off on cude & land but on turn to come back to strip it came off caught in tail section of plane became uncontrollable ~~start~~ started a steep climb so I pulled power to keep from getting any higher can't try to keep it from slowing over on the back and going into Rice Field with water upside down on coming back down tail first. Thank pulling power off was right thing to do. I got plane back to level flight before it hit ground up right pretty much destroyed plane I have compound fracture on L3 in back cut finger nail bad but can walk and am getting better so maybe can fly again next year

Sorry writing is not good doing it with main finger in splint.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I don't know how close as I am close to 40 yrs and
This has never happen to me before

Thought if I would have tried to ~~stop~~ STOP on strip I knew I
would have run off end & Thought a ditch crossed a Rd BUT not sure
now might have been a less chance to damage to me
