Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

N362AE experienced damaged to the landing gear, belly of the aircraft, propellers #1 & 2, Engines #1 & 2 and the fuselage of the aircraft during landing.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

The Captain of the flight, observed the loading process of N362AE on the ground in Del Rio, TX (KDRT). Following the loading of 1,499 lbs of cargo, the Captain departed DRT airport at 19:24 local time. The aircraft was en-route to San Antonio International Airport (KSAT) and crossed over the field and entered a left downwind for 13L. On short final, the aircraft began to yaw significantly to the right. The pilot corrected with rudder just prior to flare. The pilot noted that the amount of rudder needed was excessive to what is normally required. The aircraft banked to the right just prior to touchdown. The aircraft came down hard on all three wheels. As the aircraft departed the runway, the nose gear collapsed upon contact with the dirt. The aircraft came to a stop mat 20:20 local time.
