

Myself and Hunter Drope were working together on a Grass Strip called Norwood Strip Putting out Fertilizer on rice and corn. We worked all morning without Incident ~~we~~ we were working A Few Field over In Stanford I was to the east about a mile of the Field Hunter was working I told him I was headed back for a Load and between the time I left to the time I returned the accident took place. I seen the smoke called on the radio, No response I Flew over and seen the Plane on fire, I got rid of my Load and Landed My Plane at our Home strip In Fontaine, Arkansas.
