MEMORANDUM FOR THE RECORD

No Radar or ADS-B Track Data for the Accident Flight

July 1, 2021

ACCIDENT

Location: Curtiss, Wisconsin
Date: June 30, 2021
Time: 0450 central daylight time (0950 UTC)
Airplane: Earthstar Aircraft Gull 2000; Registration No. N1712L

DISCUSSION

A postaccident search of multiple data sources revealed no track data associated with the airplane on the morning of the accident. The reviewed data sources included primary and secondary radar data obtained from Federal Aviation Administration (FAA) air traffic control (ATC) sensors located near the accident location, automatic dependent surveillance-broadcast (ADS-B) data, and Harris OpsVue flight tracking software.
