

RECORD OF CONVERSATION

Aaron M. Sauer
Aviation Accident Investigator
Central Region

Date: 08/23/2021
Person Contacted: Witness Mark Spencer
RE: CEN21FA376

Narrative:

During a telephone conversation, Mr. Mark Spencer, a witness to a portion of the accident flight, stated he was working with a friend cutting trees near Middle Urbana Road, just north of County Line Road, about 2 miles south of the accident location. During a break, Mr. Spencer heard a loud airplane to the north, he looked up and noticed the accident airplane in a nosedive straight down towards the terrain. He described it as "one of those old dive bomber airplanes like you see in war movies." The engine was at full throttle. The airplane disappeared behind some trees, and he then heard about the accident later that day. He stated that during the descent, the airplane was not spinning or turning, there was no smoke, and no signs of any other trouble, such as parts coming off the airplane or fire. Mr. Spencer described the weather as clear sky, no clouds, and the wind was calm. He remembers the weather conditions because he and his friend were hoping for some cloud shade while they were cutting trees. He stated that he recalled the airplane being a darker color with maybe some white on either the top or bottom.

Mr. Spencer offered to speak again should the investigation have any additional questions.

OFFICER'S NAME AT LOCATION

At approximate 1440 I was heading "N" on 68 had rounded the curve and saw debris flying in air and on Highway. I had heard a buzzing noise right before. I called 911 and grabbed my fire extinguisher + fire gloves and headed out in the field on west side of 68. I did see debris scattered in field and I did see a body in the field. I exited field and rinsed legs + feet with Urbang Fire.
