

RECORD OF CONVERSATION

Aaron M. Sauer
Aviation Accident Investigator
Central Region

Date: October 5, 2020
Person Contacted: Airport Manager – Mr. Brian Weidendorf
NTSB Accident Number: CEN21LA003

Narrative:

The Field of Dreams Airport manager reported that the airport was built about 15 years ago and this accident was the first deer/wildlife strike with an aircraft on the airport property. Given the rural area, there are deer and other wildlife (mainly migrating birds) that enter the airport property and perimeter. Due to state regulations, the manager is prohibited from reducing the local deer population on the airport property. If wildlife are seen on the property, airport staff will drive vehicles to disperse any wildlife. The airport property does not have a perimeter fence.
