Prop Strike

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

We came in to land at the field, landing was good. Talked to some acquaintance's we knew. Then we proceeded to preflight the airplane and start it up. Everything was normal mechanically. Then we proceeded to takeoff and about halfway across the field I realized that I wasn't going to get off the ground in time and so I decided to abort the takeoff. From there the airplane hit a terrace and it shot the airplane back into the air and by that time the end of the field was coming up quick so I decided to try to settle the airplane down and slow us down as much as possible. Then we ended up striking a fence and flipping the airplane end over end and coming to a rest on its top.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

This accident could have been prevented by not landing in the field in the first place. Also it could have been prevented if there were no terraces in this field.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
