Subject: FW: Dunn county ND airplane crash

Hi Arnold,

This just came into the witness email box.

Regards,

Erik

To whom this may concern,

On the evening of Nov 7, 2020 while I was traveling SB on Hwy 22 in the Manning area I noticed what I thought to be a clear belly strobe, rather low and to the west of the hiway. It caught my attention as a pilot. It was very foggy in the area and I was concerned if that was an aircraft flying that low in the current low visibility and low temperature conditions.

The following day, I became aware of the fatal airplane accident that occurred in that area the night before. I remembered being on the phone with my wife when I noticed the light and I reviewed my call times. I seen that light after 18:38 MTN. I don't remember exactly where I was, I am sure I was near or south of Manning. It may or may not have been the accident aircraft, and the reported crash time does not coincide with my witness time.

I just wanted to share my observations.

Feel free to contact me at anytime.
