About 1:15-1:30 Bryan Kill 87LW called on unicom @
KTEX that he was downwind for Runway 27.
I told him to just go Back & Park in the hangar.
He said "Cool". Then a few seconds later I heard
him on the radio say, "oh ~~shit~~" That was the last
communication. I noticed that he dropped off
my flight tracker & a few mins later the Airforce
called me that they had an ELT go off for 87LW
& I told him he did & was not on the ground here
@ KTEX.

I saw the plane ^{small silver single engine low wing} on a E downwind for a west landing on R27. I felt he might have been ~ 800 ft AGL (above runway, because terrain drops off rapidly S of airport and below the downwind leg). I went outside to watch the pilot land, but never saw the pilot ^{plane} in the air.

I only saw the plane on the downwind from inside the FBO.

The plane seemed to be flying fast on the downwind. Surface conditions around that time were approx: 260° 10 - 14 mph ~~light~~

I had landed R27 ~ 12:29p today, similar winds. The winds seemed consistently about this dir + strength most of the afternoon.

I was walking my dog with my wife on Uela drive and saw a small single engine plane approach the airport from the Tiliun valley / South direction. As the plane got close (right angle) to the airport, the plane banked hard left (west). While the plane was sideways and banking, it went into a nosedive and went out of sight. Seconds later, we heard a "crunch" sound, but did not see any smoke. We were unsure of if the plane landed, or crashed. Our neighbor Denise saw the same incident and went up to the airport to investigate. Upon getting home, some other neighbors had hiked into the woods to investigate and found the crashsite less than 100 feet into the woods at the edge of the neighborhood.

My neighbor & friend, Denise Morgan, called me because she saw a "plane plummeting" near the airport. I texted Emil Sante. My boyfriend, Trevor Jones, said he would go looking for it because he thought maybe it was off the trail we always walk.

Within minutes he called me and said he found it. I called Emil and then Chris White, per Emil's request.

When we saw the plane, we yelled to see if any signs of life. No signs of life. We didn't come any closer than 15-20 feet.

~~On the way~~ At around 2 or 2:15 pm
a neighbor told us she saw a plane dive out of
control to the south of the airport. I walked at
2:30 to the last Dollar Neighborhood trail.
I heard a beep, looked uphill, and
saw a female head of hair sticking
out of a plane crash. I walked a bit
further up and saw two deceased
beavers hanging out of the left
side of the plane.
