NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I Gary Brehmer, got into the PIPER PA 12 TAIL # N2554M buckled seat belt asked if passenger buckled seat belt, turned on master switch, alternator switch, intercom switch all needed switches. Observed fuel levels, left tank 1/2 right tank 3/4 switched fuel selector to right fuel tank. Started plane taxied out to the far east end of grass runway 26, wind was 250 at 6 knots clear skies. Completed run up, went to full throttle took off and got about aprox 70 feet in air lost power for few seconds then gained power again for few more seconds then died completely put nose down to try get air speed, continued to keep nose down trying to get some air speed continued to sink tried to flair but landed hard broke landing gear, was prob 3/4 way down runway, in the middle of grass runway little to right, pointed towards the west, no one injured. Started plane at approx 1030 mountain time. then how ever long it took to taxi and do run up and take off not sure maybe 12 to 15 min after started, crash landed.
