At 7:45 we pulled into lz at that point jason started pre flighting aircraft

i was sumping truck and doing my pre trip on my truck after that i filled out safty briefing when i finished me and jason released the hook and locked it back in then we did out safty briefing around 8:20 clay started driving towards the work area jason started the helicopter and hovered for a minute to do a check then sawed a few limbs for land owner around 8:33 am he finished to fly to work area and i headed for new landing zone at 8:37 he called over the rain makeing an emergency landing and clay called soon after that to say hard landing and dropped a pin to crash site when i got there i waited for emergency response crews and waived them in around 9am
