Action of Events

January 9, 2021

0700 – Meet passengers at Albany Food Mart and eat breakfast.

0745 – Relocate to Albany Municipal Airport (T23) for preflight of aircraft and flight briefing.

Checked fuel sample of red fuel trailer

Checked fuel sample from aircraft

Added 1qt of engine oil to engine to top off at 9 qts

Added fuel from red fuel trailer for first flight

Winds Calm

Sky Clear

Temps 32 Degrees F

0830 – Start aircraft for first flight of the day. Let the aircraft warm up for approximately 15 min.

0845 – Launch the aircraft for first depredation hunt with 3 soles on board.

0930 – Land Back at Albany Municipal Airport (T23) for refuel and crew swap.

Shut aircraft down for refuel and crew swap

Added fuel from red fuel trailer

Cleaned spent rounds from floorboard

Jody Fahrig boarded front seat

Elliot White boarded back left seat

0945 – Start up aircraft and Jody Fahrig boarded front seat and

Elliot White boarded back left seat taxi to taxiway A for present position takeoff with 3 soles on board. During the boarding procedures a rifle was dropped on the dash of the aircraft turning the Alt switch, master switch, and clutch switch off. I immediately turned the switches back on and proceeded with the flight.

0950 - Conduct hover power check and final systems check

Approximately 30sec after takeoff at 70kts and 120ft AGL the engine sputters one time and then failed. Engine RPM dropped below 50% the Alt light illuminated, and the low rotor light and horn came on. I immediately entered an autorotational decent and landing. During the decent I informed the passengers to brace for impact. I attempted to advance the throttle to verify that the engine was a total loss before finishing the autorotation without power. I was going to attempt a landing in an open spot near the highway but due to a set of powerlines I would not have made it and had to make a sharp 90 degree turn left to finish landing. I flared the most available and landed the aircraft. The right skid hit a small mound of dirt and broke it which threw the aircraft slightly forward on the nose but the aircraft did not roll over. When the blades came to a stop the passengers exited the aircraft and I immediately notified emergency services, FAA, and NTSB. The passengers were evaluated by emergency personal and found without injury and declined a trip to hospital.

1230 – FAA and NTSB released the aircraft for relocation to Albany Municipal Airport (T23)
