Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Hard Landing Spread Gear

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

At approximately 9:30 am I departed Topeka Billard (KTOP) on a Part 91 repositioning flight to Claremore OK (KGCM) with 1 passenger. I added 65 gallons of fuel at KTOP. After flying approximately 40 minutes at an altitude of approximately 2000 msl, the low rotor RPM horn sounded and I saw an NF and NR droop. I lowered the collective and came aft on the cyclic to stabilize the rotor rpm's. I began to look for a site to land the helicopter. I made a turn to the right to fly west to an open field. While making my approach to the open field the RPM level continued to drop and I entered an autorotation. I was forced to land in a residential neighborhood short of my selected landing site. The landing area was a flat grassy area situated between 4 houses. There were no injuries and no wreckage distribution.
