

NTSB RECORD OF CONVERSATION

Investigator name: Kevin Otterstrom
Mode: Aviation Accident Investigator
Region: Central

Date: October 20, 2022
Person Contacted: Abdi Anvari [REDACTED]
NTSB Accident Number: CEN21LA213

Narrative:

In a phone conversation with Mr. Anvari, he stated the following:

ASI introduced himself and stated that he was with the NTSB, looking for information on an accident case that happened back on May 11, 2021. Mr. Abdi Anvari, the Director of Maintenance, was asked if he had any maintenance records of the company Sierra Mountain Aviation, Inc. related to an engine overhaul installation work order #11328 completed on April 10, 2002, and work order #7448 completed by Air West Aircraft Engines on February 19, 2002, for aircraft N793Y.

Mr. Anvari stated that the company had filed bankruptcy and that he started his own company. He kept records on the old company in the hanger for a period of five years and that he was only required to keep them for two years. He shredded all the old documents after that five-year period and did not have any information related to the work orders in question.
