Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Dents in upper skin on outer 1/3 of right wing. Broken fiberglass on right wingtip. Dent in right aileron. Dent in rudder.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Aircraft involved in incident: N747JG - RV8 (#2) Jim Gray

N977RV - RV7 (#3) Steve Lindsey

Date/Time of incident: 23 July 2021/1345 CDT

Location: KOSH

We were #2 and #3 in a four-ship landing at Oshkosh on Runway 27. Winds were light. The 4-ship was instructed to 'aim at the orange dot, land past the green dot'. As a 4-ship we were landing on opposite sides of the runway and alternating. Once slowed down, the aircraft landing on the right side would 'clear' to the cold (left) side. #2 touched down normally; #3 bounced and then touched down long. As #3 lowered the tailwheel, #2 simultaneously moved to the cold side of the runway. As the nose came up #3 momentarily lost sight of #2. Once #3 regained sight, #3 realized that #2 was directly in front of him and his aircraft had too much overtake on #2 (~10 knots). #3 tried to swerve right to avoid #2, but ended up contacting #2's rudder and outer portion of right wing with #3's left wing. Estimated speed was approximately 10 knots.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

This incident could have been prevented by increasing the spacing between the elements of the 4-ship during landing. The pressure to land, stop, and get off the runway into the grass as quickly as possible (during Oshkosh Airventure arrivals) helped create an early turn off for #1 and #2 in the formation, decreasing the runway length available for #3 to slow down.
