

RECORD OF CONVERSATION

Aaron M. Sauer
Senior Air Safety Investigator
Central Region

Date: 08/05/2021

Person Contacted: Ground Support Personnel – James/Andrew Wagner

RE: CEN21LA357

Narrative:

According to James and Andrew Wagner who participated in a joint telephone conversation, they assisted the pilot, Mr. Jacob Perry, with loading 480 gallons of insecticide and fertilizer into the airplane's hopper and added about 60 gallons of fuel. The additional 60 gallons of fuel increased the total fuel on-board the airplane to be about 150-160 gallons of fuel. They stated the operator did not have any fuel records.
