NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained.

went to airport to do some practice full stop landings. Did a preflight and everything checked out, pushed plane out and strapped in, started plane, checked and set instruments, called Digiwx on radio on field and got weather. Taxied to ramp and did run up. taxied to runway and departed. Made a landing on the grass and decided to do one on the hard surface. The landing went good and on taxing I ground looped the plane and had a prop strike, airplane nosed over on to its back.

I unbuckled seat belt and exited left door onto wing.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

i would recommend only grass runway landing if possible until a person has more hours in a tail wheel airplane.
