Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

No property damage. Ultralight was destroyed. Photos will be supplied.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

At approximately 1:20PM on September 18, 2021 I took off in a single seat Ultralight to the East from a 2600 foot grass farm strip located approximately 2 miles Northwest of Higginsville, Missouri. The elevation is 700 feet and the runway runs East-West.

After take off, I climbed to approximately 200 feet, made a turn to the North, flew over a hangar and turned to the West. Within approximately 1/2 mile of the landing strip, I decided to turn back toward the strip. At the time I started the turn, I was Northwest of the strip. As I started the turn to the left, I applied a hard right rudder. My speed at the time was approximately 50 mph. The left wing suddenly dropped straight down and the aircraft apparently stalled causing the Ultralight to crash into a drainage ditch. It was totally destroyed and I sustained serious injuries.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation
