Date: January 18, 2022
Person Contacted: Donald Thibodeau, Lake Aviation Center
NTSB Accident Number: CEN22FA021 – Lena, Wisconsin

Narrative:

Mr. Thibodeau reported the pilot contacted him a few weeks before the accident to inquire about an annual inspection. He informed the pilot that they had availability and that he could bring the airplane and drop it off. He did not hear back from the pilot.

On the day of the accident, the pilot's friend arrived at Lake Aviation about 4:50pm. She informed Mr. Thibodeau that the pilot was bringing the airplane up from Texas. The pilot was expected about 4:00pm based on a text message she had received earlier that afternoon. Mr. Thibodeau pulled the flight up on Flight Aware and monitored its progress until it descended as it neared the accident site.
