

RECORD OF CONVERSATION

Timothy N. Sorensen
Aviation Accident Investigator
Central Region

Date: January 26, 2022
Person Contacted: Kathie Barnes
NTSB Accident Number: CEN22FA080 – Bloomington, Indiana

Narrative:

Ms. Barnes was a passenger on the flight before the accident flight. That flight was from Chicago Executive Airport to Indianapolis Metro Airport. It was a smooth flight with no issues and communications with air traffic control seemed routine. They encountered some rime icing near Lafayette, Indiana. The pilot descended to a lower altitude out of the icing conditions and the flight proceeded without incident. The pilot seemed to be “very conscientious.”

Ms. Barnes noted that she flew with the pilot from Indianapolis Metro to Chicago Executive the preceding day which was also without incident.
