FLIGHT REVIEW CHECKLIST

PILOT: Bill Lamber

AIRCRAFT N 83574

CERTIFICATE # on File

DATE 4/11/2018 RATING

MEDICAL 11/2018 3rd

DATE

ME + Ride

PILOT HOURS: on File

Airworthiness

Flight Planning

Engine starting & warmup

Preflight ramp & use of Checklist

Normal takeoffs

Crosswind takeoffs

Density altitude takeoff

Level off

Straight & level flying

Use of trim / electric trim malfunction

Coordination & planning

Slips

Medium & steep turn

to specific headings

Maximum performance

Slow flight

Stall recognition and recovery

Emergency operations

Attitude instrument flying

Straight & level

Climbs, turn & descents

Unusual attitude

recoveries

Traffic Patterns

Normal Landings (Spot) (no wheel)

Crosswind Landings

Soft / Short Field takeoffs & landings

Use of flaps

Use of radio for Communications / Loss of Communication

Use of radio for navigation

Pilotage

Smoothness on controls

Looking around for other aircraft

Shutdown & parking procedures

Set up Aircraft in Fore Flight.

Entered rear of Log book -

I certify that _____, pilot certificate number _____, was given 1 hour of ground training and 1 hour flight training and has satisfactorily completed the flight review required in section 61.56(a).

Date _____ Jeffery L. Engels _____ Expires _____

1.1 Flight

1.5 Ground School

I certify This Flight review
occured on May 8th 2020.
