**Subject:** CEN22FA331 (North Folk, Idaho) Global Positioning System Device No Data Email Report

### **Email Report Instructions:**

The narrative and attachments from this email report may be used in other reports at the discretion of the IIC. This email, including attachments (if applicable), should also be placed in the docket by the IIC.

### **Email Report:**

The Vehicle Recorder Division received a Garmin aera 760 (S/N: 6HC002660). The device was submerged in water during the accident event, rendering it inoperable. An internal non-volatile memory chip was removed and readout using laboratory tools. The contents of the chip were reviewed and historical data pertaining to the accident event were not identified, thus, no data were recovered.

### **Prepared by:**

Gerald Kawamoto, Recorder Specialist NTSB RE-40
