Shaun,

I was able to track down the most recent fuel receipt for N30EV. The last fueling was on 08/10/2022 at 11:08 a.m. I checked with the other FBO on the field and they do not have anything more recent than that for the aircraft. It appears that this would have been prior to the short flight conducted on 08/10/2022 and that there was no refueling between that flight and the accident flight.

Thanks,

Nick Loftus
