3/22/18 *N58807* *182P* *S/N: 18262310* *Tach: 3095.5*

Removed the nose landing gear assembly and the nose gear firewall attachment brackets. Removed the cabin forward floor panel and center console assembly. Disconnected the rudder and elevator trim chains from the sprockets. Removed the left and right tunnel bulkhead assemblies along with the left and right tunnel angles. Replaced the right hand angle support on the inside of the firewall for the nose gear support, P/N: 0713638-2. Installed new left and right tunnel bulkhead assemblies, P/N: 0713631-1 & 0713631-2 along with the left and right tunnel angles, P/N: 0713671-3 & 0713671-4. Replaced both the left and right upper nose gear reinforcement fittings, P/N: 0713638-1 & 0713638-2. Reinstalled the center console and floor panel, both trim chains to their sprockets. Installed the nose gear firewall attach brackets and installed the nose gear assembly. Serviced the strut with Mil-H-5606 Hydraulic fluid, replaced the high pressure valve core and serviced with nitrogen as needed. Checked the elevator and rudder rigging and set cable tensions to within limits. Repaired wires for the stand by vacuum system INOP light. Repaired the wires on the center console post lights as needed. Replaced the right master cylinder brake hose and bled brake. Replaced the left brake caliper O' ring and bled the brake.
