Email Report Instructions

The narrative and attachments from this email report may be used in other reports at the discretion of the IIC. This email, including attachments (if applicable), should also be placed in the public docket by the IIC.

Email Report

The Vehicle Recorder Division received the following electronic device: **Appareo Stratus 3i, serial number unknown**

The device is pictured in **CEN22FA424_Stratus3i.jpg**. The device was severely damaged in the accident and included components of major physical deformation. The device was missing half of its outer housing and was covered in earthen debris. The device was incapable of being powered independently.

The device was determined to be from the Cessna 172s N2117Y. The investigator-in-charge (IIC) stated that ADS-B position data was available from this aircraft. The IIC stated that position data available from the Stratus 3i was redundant. Data recovery of the Stratus 3i was not pursued.

No data relevant to accident was recovered from the device.
