Subject: Plane incident
Date: Friday, January 7, 2022 12:48:59 PM

On October 30th, at around 1820, I was driving eastbound on Interstate 20. Looking out my window, I noticed a small plane, it looked to be moving very slowly. I remarked to my girlfriend how low it was and had no lights on. About the time I remarked that I saw it strike a pole and sparks flew. We immediately called 911 and drove to the scene. I was second on scene and rushed to help. We pulled the pilot out of the plane and he was extremely disoriented. He knew he was flying from Oklahoma, but kept asking what happened. 2 young girls were removed from the plane with minor cuts. A woman was left in the plane as we feared moving her with back pains. The plane was upside down when we arrived. Another gentleman from the airport was on the phone close by and said he saw them on approach with lights and then they drifted off and lights went out.

If you need more information let me know. That incident isn't something I will forget. The fear in the pilots eyes was a look I will remember
