NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

01-18-2022

Clear skies in Victoria, Texas. I got a briefing from 1-800-WX-BRIEF and also ForeFlight. A normal preflight with full fuel and a takeoff, Runway 13 around 0950 and exited D Airspace and contacted center for flight following. A smooth flight to KTKI with some turbulence at about four thousand. DAL approach. Cleared me direct KTKI.

At about 11:20AM Received information Mike. Winds South 20-30 right down runway. On downwind I was asked to make a short approach to 18, if I could. I acknowledged OK. Stable approach, 85 Kts over the lights, 80 at the end of the runway and aim point was about 1500 feet down the runway. Smooth touchdown with two chirps - pretty much down the center line. Almost immediately an un-commanded left turn which full right rudder and moderate breaking would not arrest the turn. I was going into the grass but in between the runway lights. Upon entering the grass, the aircraft made a harder left turn making it almost perpendicular to the runway and heading down a drainage embankment in excess of 45 degrees. A terrace about halfway down took out the nose gear and the aircraft then slowly veered right stopping almost facing south. I shut off the switches. Opened the door and exited the aircraft.
