Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft rolled over on its side and was a total loss.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I arrived at job site approximately 7:30, had to wait for weather to clear, was foggy and maybe a mile visibility. Cleared up around 9 am and aircraft departed trailer for a local flight to gather cattle. Terrain was rolling hills and brush. About 1.1 hr into the flight i needed to land. I landed and exited the aircraft just outside of door. Helmet was still plugged in. While standing outside, helo picked up, spun around knocking me down. It then hit sideways and rolled over. I think helmet cord hung under collective and raised it. I don't remember any change in engine rpm. It just jumped up and spun around.

Fuel was obtained from tank on pickup.
