Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

The airplane lost the landing gear in different moments of the accident, 3 fences and the field.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

We arrive to Million Air around 1220 hrs, my son Ruben ask for the fuel (70 gallon each wing), to the frist lady (from right to left) and to pull up the airplane to the ramp, we saw the truck fuiling the aircraft from the FBO, then I we ask for the bill to the middle lady, she pull up the invoice and show us pointing the total by concepts and circuling the total, after several minutes the plane was pulled up to the ramp, my son and I went to the airplane to check the oil in the engines, put the baggage in the plane and get the clearence to KSAT the propose time was 1315 hrs local time.

After that my wife and my daughter in law got on the plane and we turn on the engines, at this was around 1400 hr, talk to ground, they clear us to runway 13R via Gulf, we hold short of the runway to do the run up, and everything look normal, the next instrucción was to enter and aline to the runway, when they clear us for take off, I put the thruttles all the way in, half the way on the take off I said to my son that the airplane was feeling weird, but it was to late to stop, that is when my son talk to the tower and said we had troubles with the engines, we recibe the option to turn bak to runway 4, and he answered that we are not going to make it, buecause by that time (300ft) we started losing power and altitude

We saw the field as the only option to put down the plane with less risk for everyone, as if was the only open field everywhere else there is houses. We perform an emergy landing in the football field after touch down, lost the left main gear and that caused to lost controll of the aircraft and end up in the back yard of the houses near by.

When we stopped there was fire on the left side of the plane, so my son opened the emergency window and went out thru there.
