

Jennifer Rodi
Senior Air Safety Investigator
Office of Aviation Safety - Central Region

Date: February 24, 2024

Subject: CEN22LA191 - N5060

Contact: Greg Thurston - FAA FSDO

- The pilot had recently purchased the airplane
- The pilot landed the airplane on the runway and the airplane departed the runway, bounced through the grass, and became airborne after it hit a berm
- The left wing hit the ground and the airplane cartwheeled
- The airplane traveled about 1,000 ft from the runway to where it came to rest
- The pilot sustained serious injuries
