**Person Interviewed: Thomas Ballard – FAA FSDO Inspector**

**Date: June 13, 2022**

**Subject: CEN22LA254**

FAA Inspector Ballard reported the following damage:

- The landing gear support rod collapsed
- The left fuselage structure was bent
- The tailwheel broke loose, and the lower empennage/fuselage tubing was bent
- The right wingtip folded under and the flaperon cap sustained minor damage
