Firemen destroyed the rest of the aircraft.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

See attachment, Dated 6-17-22 -
Letter to FSDO

6-17-2022

Mr. John Parker

Jackson FSDO

Jackson MS

Mr. Parker,

Per your request for a statement regarding the aircraft N39880.

A part 91 flight on 6-16-2022, resulted in smoke in the cabin just after departure. This resulted in a quick return to the opposite runway and an uneventful landing. While taxiing in, there was more and more smoke, so the passenger and I evacuated the aircraft. The passenger used a 20 pound fire extinguisher on the right side of the engine compartment where smoke was coming from. About two minutes later, we saw fire from the right side. 911 had already been called. The cowling then burned, and fire fighters arrived on scene. After repair of a small drip in a hydraulic line with the aircraft up on jacks it was returned to service. The next day the mechanic was aboard for the test flight where the fire resulted.

Please let me know if you need any further information.

Mark Bowie

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☒ Yes ☐ No
(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)I believe the tail pipe seperated in the
