Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Aircraft experienced a prop strike which damaged the prop and most likely the engine as well. There was also sheet metal damage, flat spots on tires, and a dent in the firewell. I will include pics.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed DUA @ 1:42 pm after listening to the Awos @ DUA. The AWOS at AQ12 is currently inop. ~~There~~ The Wind was from the East at around 8-10 kts. I landed long but thought that I had plenty of room to stop. I DID NOT. Upon nearing the South end of the runway, I veered off into the grass on my right as to avoid going out in the highway. I assumed that I could make a "U Turn" on the grass and then stop the plane. I was not able to make the "U Turn" and the plane slid into a one rail fence that was about 2 ft in height. I will include pics.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

This entire incident could have been completely avoided had I simply went around instead trying to land at nearby midfield.
