State The Following:

I am giving this statement to Deputy Lauer of the Orleans County Sheriff's Office. On 5/28/23 at around 6 pm, I was outside in my yard, I heard a low flying plane traveling over my yard, I believe going southwest. I heard that the engine of the plane didn't sound right, so I turned to look and saw pieces of something coming off, what I thought was maybe a parachute. Some parts fell in the orchard just south of my home. By the time I realized that it was pieces of the plane falling, I had lost sight of the rest of the aircraft. I ran inside and put my shoes on. I got in my car and started driving down Platten Rd, where I thought the plane had been traveling. I got to Woodworth's farm and turned around to call 911. By the time I returned to my house, my wife had already called 911. Shortly after, the Sheriff's Office arrived and asked where the crash happened. I directed them as best I could. This statement is true to the best of my knowledge.

State The Following:

I give this statement to Investigator Brian Marsceill of the Orleans County Sheriff's Office. On yesterday, May 28th, 2023, I was driving in my truck north bound on Yates Carlton Town Line Rd. While driving I saw a small airplane in the sky in front of me. The plane was flying south easterly and was banking to the right, to travel west. The plane leveled out, and as soon as it leveled out, the wing closest to me, the left wing came off. Right after the left wing came off the right wing came off. The plane began spinning, like a barrel roll as it came down. From where I was, it looked like the plane just missed the Amish house. I pulled up and stopped at the house, the an Amish man that lived there was outside. We ran to the field where the plane crashed to check for survivors. When we got up to the crash, I saw what I believe was two people in the wreckage, both appeared deceased. I had called 911 and waited for 1st responders. I recognize the plane as the same plane that had been flying in the area early that day. To me, the plane didn't look like it was going fast, it appeared to bank easy.
