Contact Geoff Downey one of Gyro Briefers			
Phil Land [REDACTED] Will Contact			
Phil was the briefer on 07/29/30 Sat last day of daily pattern activity			
SUBJECT GYRO Briefing			
DIGEST			
stated; The gyro pilot of N221EL did a 360 on Friday and there were words exchanged on frequency between him and the aircraft following him. It was way to close. This was on the North end of runway 33. IE The campground area. Phil Land conducted the briefing with all participating pilots on the day of the accident. The briefer used a 3'x5' map, Overhead Photo carved 2' x 2' layout. No power point because they were in a tent for the briefing. Participating Pilots were required to sign in and received wrist band based on that days color to fly. If a passenger would be carried they signed a waiver at the Line Shack before they were allowed to fly. The briefing included and was very specific due to the event the day before "Phil reiterated NO 360 in the pattern" you must continue in the pattern stay and pass to the left away from the crowd for the 33. Mark Peterson is a 10,000 helicopter pilot that was very respected amongst his peers, he would assisted in briefings and was a air safety advisor. Tom Volz was the In-charge of the LZ located by the Gold Lot. Copters merge into the flow at the end of runway 33 and on the south portion of the trolley road or parallel to N south side of pattern On the day of the event Phil Land was in the tower Geoff Downey was on the ground, on a ramp control frequency N221EL did a 360 despite the briefing on SAT and the Friday close call In the 360 he was over powerlines trees houses parked aircraft and people at the show all are against the procedures outlined in the briefing. Pattern safety was discussed mainly the Trolley Road area and changes to the pattern this year(see Power point) Conflict with aircraft in pattern at 300ft over buses Tractor Trolleys and pedestrian walking on the Trolley Road			
CONCLUSION, ACTION TAKEN, OR REQUIRED
