Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Bounced my landing. Airplane yawed to the right. I recovered from the ground loop after 90° of yaw. At that point I was 90° to the runway and on top of a low bridge over the runway. I applied power to try to hop over the low wall on this bridge. The wall knocked the gear back and the plane belly landed in the creek bed.
