Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

SUBSTANTIAL DAMAGE TO AIRCRAFT

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

On the morning of Sunday, November 20th, my girlfriend, Danielle Belovsky, and I planned to take a sightseeing flight in C150 N10612 out of 6R3 airport. I topped off with fuel at 6R3 (about 4 gallons per side, 8 gal total), sumped fuel tanks, checked oil, and performed complete preflight checklist.

At around 12pm I took off out of Cleveland, headed south toward downtown, flew the I-10 corridor past downtown, then headed northwest, attempting to avoid Hooks airspace. Total flight time was around 1.5hrs.

Suddenly, without any power changes or any change in operating, the engine began running very rough and shaking violently. I knew instantly there was a significant problem. We were at approx. 1600ft so I began to ascend, head toward the nearest airport T51 Dan Jones, and went through troubleshooting. I left the carb heat on specifically in case that was the issue. Plane continued to shake violently as I followed the troubleshooting checklist, checked fuel selector, checked mags, and the engine quit at about 1900ft. Identified possible landing locations between a drainage ditch and the field I landed in. Made my way to the field, squawked 7700, and ensured pitch for best glide. When I knew I had the field made, I engaged full flaps, knew I was too high so I side slipped, got close to trees to help with touchdown because I knew I would hit the fence. I knew we were too fast, floated, tried to force wheels down to get brakes engaged and then just remember crashing through the fence.

Called 911.
