ON FOLLOWING PAGE

Mr. Sauer,

The events of my accident on 11/20/2022 are as follow, to the absolute best of my memory.

My stepdaughter lives in Harragate Tn., I was planning on flying down there on that Sunday (11/20/22) and returning with her on Monday for the holiday. I had watched the weather and made all the arrangements for a nice easy flight there and back. I arrived at the airport (KSTJ) at approximately 10 am. I had already warmed the hanger and plane up, when I arrived I preflighted the plane while in the hanger, loaded everything up and pulled it out.

After pulling my truck back in the hanger, I got in, ran through the checklist and fired up the plane with no problem. I checked all the gauges, instruments and taxied up a little to listen to the weather on 125.05. I radioed ground 121.90 and let them know I was ready and they cleared me to taxi via Alpha to runway 17. Repeating the instructions I started my taxi, pulling over at the 'hammer head' for my run up I double checked everything and everything was good.

I then pulled away from the 'hammerhead' and taxied up to the hold short line before runway 17, stopping there for a short moment. I then radioed tower 126.90 and let them know I was ready to go, they radioed back and gave me clearance to take runway 17.

At this moment I thought I repeated the same clearance back only to learn later that I did not. Up to this very moment I was all ready and everything was good, but this is where it went haywire, is the best way I can describe it. I do not know how long I sat there, I do not recall anything after thinking I read back instructions. I have a very foggy memory of my clothes being cut off and seeing my wife in the room when I came to, in the hospital. (my wife was over an hour away from the hospital)

I did not learn the extent of everything or understand the extent of everything until much later or even the next day. After a CT Scan and 2 MRI's the hospital found a tumor on my brain that was the cause of the activities on 11/20/22. There were no direct symptoms for this and no way short of an MRI to know it was there. I had just received my 1st class medical a month earlier with no issues at all.

If there is anything else I can help with please let me know.

David Arnold
