Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Leading edge of left wing where the bird hit the aircraft

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

After departing 17R at KDWH I was the MEI and PIC on aircraft N101BM. I noticed a large bird that was not moving in the wind screen and I paused for a second to see if it was going to change its flight path. When I noticed that we were on a possible collision path I took the controls from the student and banked the aircraft to the right. When the left wing started to climb in the tight turn the bird folded its wings and hit the wing. I declared an emergency and told the tower that I was coming in for an immediate landing.
