

Mitchell Gallo
Senior Aerospace Engineer
Aviation Safety - Central Region

Date: June 28, 2023

Subject: CEN23LA165, Correspondence

Contact: Vincent Van Hasselt, DE Safety & Reliability, Pipistrel

Vincent Van Hasselt stated that since 2018 Pipistrel is keeping an occurrence database that contains occurrences reported directly to Pipistrel (e.g., employees, operators, pilots, etc.) and accident investigations that were communicated as per Annex 13. Until the event on 1025 SFNM 912 LSA there is no other reference of a fire related to carburetor fuel leakage inside the database.
