Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Landing #1

Normal takeoff, noticed a lot of wind on takeoff

Turned crosswind and arrived at 1300ft, pull back to 1900RPM.

Turned downwind, and as I did, got a large gust that pushed me to 45 degrees or more, but recovered and leveled off, continued downwind.

10 degrees flaps abeam of the intended point of landing

Turned base, was a little high, getting ready to turn final, 20 degrees flaps still feeling high

Turned final, wind pushed me to right of center, got back to center line and pulled all the power.

30 degrees flaps

Windsock still around 110-120, when I was about to land, I could feel the mains touch but felt like I floated, when I got back on the ground, I could feel the prop spinning 2-3 times, plane slowed and porpoise stopped but was too fast to exit F, so exited G.

Taxi'd back, noted a plane behind me taxi'ing from the fuel station.

Landing #2

Takeoff normal this time, not as windy

Turned crosswind

Turned downwind, achieved 1300 MSL, pulled RPM back to 1900

Noted the plane behind me exited to the west

Downwind, 10 degrees of flaps abeam the intended point of landing

Turned base, 20 degrees of flaps,

As I turned final, was high and pushed again to the right of center - got back to center, pulled all the power.

30 degrees of flaps

Noticed the windsock was crosswind but 5-7 kts

Touched down on mains, felt it float, stayed with it and came down, but felt the porpoise, again. This time the tires screeched as the plane began to slide to the right, but turning left.

Unable to stop, I skid into the grassy/mud area where the mains stopped and the momentum of the plane continued forward pushing the prop into the ground.

Saw the ground coming towards me but could tell it wasn't very fast - when the cone hit the ground, it stopped moving forward and plane went back to the normal position.

Turned off all electronics, removed seatbelt and exited the plane.

Sheriff and John Yarborough came to check and make sure I was OK.
