Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Aircraft is destroyed.

No damage to property.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I landed to get my 12th load of fertilizer that morning and we had an issue with the scale on our loader truck, which overloaded the airplane. I knew the airplane was overloaded. My plan was to open the gate and let some fertilizer out and fertilize the grass strip while taking off down the strip. As I got to my No Go point where I could have stopped the airplane safely on the ground, it started to lighten up and was wanting to fly. As I started my turn to head towards the field, the plane started sinking to the point that it was no longer going to fly. I was over our field so when I got to a good spot where I could put it in the field and slow it down as much as I could before it hit the levee. Once it hit the levee, it rolled over on its back and I unbuckled and got out the airplane.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I should have removed more fertilizer until I was certain I would be at a safe weight.
